Meriden, CT

Request to testify at the public hearing on immigrant driver's licenses in the state of Ct.

My name is Lucia Luna.

I am representing the Hispanic community of Santa Rosa de Lima Church in Meriden.

I'm a hard worker with a daughter and every day I get up at 5 in the morning.

I raise my daughter to take her to the babysitter so I can go to work.

That is why I am here today to convey to you our legislators to consider the opportunity to give us drivers licenses to immigrants and that is a great need.

This would benefit our community here in Connecticut.

Since many of us are driving the need for our children and for our work we have no way of transporting.

This legislation would also benefit the automotive and insurance agencies.

The economy also because we would like to buy a car and pay off our own taxes.

We do not want to walk in the fear of driving a car without license afraid of the police.

Please get a moment in our situation.

Many of us have a favor to ask others to register our cars benefiting them that sometimes we humiliate or abuse of our need.

Let me share a personal experience.

Some time ago a friend and tell my car registration.

One day I leave parked in the street outside my house and someone crashed, the car was totaled.

The insurance gave the money to my friend and she never gave me anything for that.

Although I asked for at least half she told me no and that if she kept insisting that I would steal my own car.

Therefore I ask you to pass this proposal to no longer take advantage over us.

Thank you very much,

Lucia Luna
